Taking the lead with advanced engineering, the Stellar cantilever umbrella offers the ultimate amount of shade flexibility. Creating and controlling shade has never been easier than with the Stellar. Designed to give maximum shade flexibility in residential homes, it is both easy and quick to operate. The Stellar offers 7 different tilt angles from left to right, as well as full tilt adjustment back towards the mast, all in conjunction with 360 degree rotation. Using these innovative features the umbrella can be cleverly positioned to maintain the shade over your outdoor area as the sun moves throughout the day. Built with a strong powder coated aluminium mast and durable canopy fabric, you can enjoy the quality of the Stellar for many summers at home.

## ACCESSORIES

### COVER BAG

What better way to protect your umbrella than by using a protective cover. Easy to use and will prolong the life of your umbrella by many years.

### FREESTANDING BASE

Freestanding 85cm x 85cm base with aluminium cover. Weighs approx. 230kg with 12 x pavers added, (40x40x5cm). Pavers not included.

### FREESTANDING HALF BASE UPGRADE

This is our latest freestanding base design where the umbrella fixes in front of the base, and at ground level. This provides more usable space under the umbrella and keeps the umbrella at the correct height. NZ Pat App No. 768055

## CANOPY COLOURS

Shade7 uses premium quality 100% solution-dyed polyester fabric from O'bravia® for standard colours in the Stellar umbrella range. O'bravia® fabrics come with a 5 year warranty against fading and rot. These fabrics are extremely colour fast, durable and water resistant. It also has the highest possible UV protection rating of UPF 50+ according to NZ and Australian standards, cutting out the maximum amount of harmful UV light for excellent sun protection.
