

TEMPEST

giant heavy-duty commercial umbrella

SHADE7
premium outdoor living

THE TEMPEST OFFERS MAXIMUM
SHADE AND WEATHER PROTECTION
FOR COMMERCIAL ENVIRONMENTS

3.5m Square Tempests installed for Metlifecare
at the Poynton Retirement Village, Auckland.

3.5m Square Tempests installed for Auckland Council at Queens Wharf

This heavy-duty giant telescopic umbrella is built super-strong and is engineered to withstand wind gusts of 80-100km/h while open. The canopy arms are made from reinforced aluminium that is connected to an impressive 94mm mast with internal reinforcing channels for extra strength. The Tempest is quite simply the best non-permanent umbrella on the market today.

TEMPEST ADVANTAGES

- All materials are corrosion resistant
- Canopy opens and closes above furniture
- Extremely sturdy and robust – able to withstand 80-100km/h wind gusts
- Huge canopies provide maximum shade protection
- Water repellent canopy also offers rain protection
- Multiple umbrellas can be joined together
- Non-permanent installation
- European made acrylic canvas fabric with 5 year commercial warranty
- 3 year back-to-base warranty on the frame

Tempest 3.5m Square umbrellas.
Installed around The Base Shopping
Mall, Hamilton.

Top: 6 x Tempest 4m Square umbrellas with Pistachio R160 fabric. Installed at Westfield Albany.

Above: 3 x Tempest 5m square umbrellas with Ecu R117 fabric and screen printed logos. Installed at Hard Rock Café Denarau, Fiji.

COMMERCIAL QUALITY

The Tempest umbrella is specifically designed and engineered for commercial use and windy environments. The Tempest is the ideal way to provide sun and rain protection for large outdoor areas without needing to build an expensive permanent roof structure.

PRINTING & BRANDING

We can easily screen print your business logos and artwork onto your umbrella. Our superior printing techniques and technology provides deep and rich looking colours and accurate colour matching to your brand. We also use the best quality inks to ensure the logos last the longest possible amount of time with minimal colour loss and fading.

FEATURES

The Tempest commercial umbrella is unlike anything on the market today. Made with a marine grade aluminium frame and strong stainless steel components and fixings, this umbrella is durable and extremely strong. The umbrella is often purchased in multiples of two or three to create large covered outdoor areas for restaurants, cafes and many other commercial

environments that require a large but durable shade solution. What sets the Tempest apart from other options is its strength and ability to withstand wind. The umbrella is rated to withstand wind gusts of 80-100kph giving business owner's peace of mind and time to close the umbrellas when adverse weather suddenly arrives.

MARINE GRADE ALUMINIUM FRAME

HEAVY DUTY 94MM DIA. ALUMINIUM MAST

DOUBLE REINFORCED JOINTS

DURABLE TELESCOPIC MAST & TOP HUB

ALUMINIUM HUBS AND ARM CONNECTORS

ACCESSORIES

FREESTANDING PAVER BASE

Freestanding movable base with hidden internal wheels and adjustable locking feet. Suitable for 4m Tempest umbrellas in sheltered locations only. Weighs approx. 180kg with gravel added.

COVER BAG

Recommended for acrylic canvas fabric canopies. Will prolong the life of your umbrella fabric.

IN-GROUND FITTING

For installation into a patio or the ground.

BASE PLATE

For installation onto concrete patio.

INSTALLATION OPTIONS

There are three different ways to install your umbrella. Most commonly a Tempest umbrella is installed onto a concrete patio using a base plate and bolts. Secondly you can install into the ground using an in-ground fitting and concrete. You can also install two or more installation fittings to give you multiple umbrella locations for different seasons or events. Finally, there is a freestanding base available for when it's not possible to use an installation fitting.

CANOPY FABRIC

EUROPEAN MADE, 100% SOLUTION-DYED, ACRYLIC CANVAS - Our premium marine-grade fabric comes with a 5 year warranty and has the best available colour fastness rating of 7-8 out of 8*. It also has the highest possible rating of UPF 80, cutting out the maximum amount of harmful UV light for excellent sun protection.

HEAVY DUTY PVC - Tempest umbrellas are also available using heavy duty 720gsm / 1000 denier PVC with a 0.6mm thickness. These are ideal for commercial environments because they are highly water resistant and great for locations with medium to high wind exposure.
